Objective

To obtain an entry-level position where I can apply my academic knowledge in programming and learn from experienced professionals. I am eager to contribute to your team's success while gaining valuable industry experience and advancing my skills in software development.

Work Experience

Central Mindanao University – Software Development Department Intern

Web Developer February 2024 – June 2024

Roles

- Gather data for the project requirements via consecutive interviews with the client.
- Design the Entity Relationship Diagram (ERD) of the System.
- Design and develop the front-end of the project.
- Implement the requirements for the system in the back-end
- Full stack coding for both backend and frontend of the project.
- Collaborated with a fellow intern for the documentation of the project.
- Integrate other technologies using API for the system.
- Manage and maintain the database of the project.
- Kept track of project schedules and deadlines.

Projects Developed

Web-Based Boarding House and Dormitory Management System for Central Mindanao University – Capstone Thesis Project

Team Member and Main Developer

- Supervise the progress of the project implementation
- Created a dynamic and responsive UI using Bootstrap and AdminLTE Template for the frontend of the project.
- Used Laravel PHP as the framework of the web application project.
- Integrated other technologies to the system such as Google Maps API.
- Used JavaScript AJAX for real-time fetching and updating of data.

Central Mindanao University Office of Student Affairs and Services (OSAS) Student Organization Management System – Internship Project

Team Member and Main Developer

- Supervise the progress of the project implementation
- Created a dynamic and responsive UI using Bootstrap and AdminLTE Template for the frontend of the project.
- Used Laravel PHP as the framework of the web application project.
- Integrated other technologies to the system such DOMPdf for document submissions and document viewer, and JavaScript Library XLSX for exporting data.
- Used JavaScript AJAX for real-time fetching and updating of data.

Central Mindanao University Social Media Application – CMUnity

- Team Member and Main Developer
- Supervise the progress of the project implementation
 - Created a dynamic and responsive UI using Flutter Dart Technology
 - Used Flutter Dart as the framework of the cross-platform project.
 - Integrated other technologies to the system such Google and Facebook Authentication.

Skills and Expertise

- Laravel PHP – Utilized for the development of the two web application projects listed above.
- Flutter Dart – Utilized for the development of CMUnity Mobile Application.
- Git – Used for the repository of my projects.
- MySQL – Utilized for the database management of my web application projects.
- Visual Studio Code – Utilized as my main Integrated Development Environment (IDE).
- HTML, CSS, and JavaScript – Utilized for customization of the front-end of my web applications.

Educational Attainment

Central Mindanao University Bachelor of Science in Information Technology - Software Development With Latin Honor – Cum Laude	2020-2024
Tagum City National High School Humanities and Social Sciences Strand	2018-2020
Tagum City National High School Service Award – TCNHS Marching Band	2014-2018
Magugpo Pilot Central Elementary School	2008-2014
Letran De Davao Inc.	2006-2008
